## Assign the correct drug codes with total confidence

### How [MedLearnDrugCodes.com](http://MedLearnDrugCodes.com) contributes to HIM/coding best practices

HIM professionals are regarded as the ultimate coding and documentation experts within the hospital. This perception carries over to every department—including pharmacy. The problem is, most HIM staffers receive little or no training specifically related to HCPCS codes for drugs.

It's time to put [MedLearnDrugCodes.com](http://MedLearnDrugCodes.com) on your side! With this ultimate online resource, you'll instantly elevate your coding skills by tapping into a wealth of clinical, HCPCS coding and diagnosis coding guidance pertaining to drugs administered in the hospital setting.

#### The value of this tool for staff with HIM/coding responsibilities includes:

- Guidance with medical necessity issues
- How to match up ICD-9-CM codes with drug usage
- Verification of HCPCS/CPT code assignments for drugs
- How drug administration CPT codes correlate with specific drugs

What's more, you enjoy the flexibility of searching [MedLearnDrugCodes.com](http://MedLearnDrugCodes.com) by drug name (brand or generic), HCPCS or CPT code, NDC number, ICD-9-CM code or therapeutic class.

#### Snapshot: [MedLearnDrugCodes.com](http://MedLearnDrugCodes.com) in action

Everyone in healthcare understands this mandate: "You'll have to do more with less." In one hospital, this translated to the HIM department assuming responsibility for the review of claims denied by third-party payers.

Using [MedLearnDrugCodes.com](http://MedLearnDrugCodes.com), the most definitive reference resource of its kind, HIM staff easily verified the accuracy of coding assignments, determined whether billing was consistent with the prescribed dosage and validated the alignment of diagnosis codes with FDA-approved indications for drug use.
